

News

Volume 1, Number 2 – 12 April 2007

AXSDry is a complete set of online tools and databases designed for the dry bulk shipping industry. Hundreds of operators, brokers, charterers and financial institutions save time and effort by pooling their key information in one place. Members agree they make better decisions by easily interacting data with our powerful assessment and analysis tools. AXSDry enables you to have a complete view of the dry bulk shipping market – without having to sort through thousands of e-mails, or manage multiple programs on your desktop.

What's New?

Singapore Representative office open. From our new base at 120B Telok Ayer Street, Singapore, we're providing our APAC customers with even better service and support. AXSMarine's Asia Pacific Commercial Manager Florie Jacquet is on site. Florie previously worked at our Paris head office and across Europe. She can be reached at florie.jacquet@axsmarine.com or +65 6225 3115.

AXSDry Welcomes New Members

SSY Hong Kong have recently joined and are using AXSMarine to selectively manage and share some tonnage positions with other members.
SINOKOR, another new member, uses our position and cargo managers to complement their own and contribute to market analysis.

Inside AXSDry

Cargo Manager

The new version of **AXSDry Cargo Manager** will be launched on May 1st. We are in the final phases of mastering the software for full release, and already staging the migration from old to new version on our systems.

Port Library

Since our last newsletter, an **additional 66 DAs and 32 berths** have been added to the Port Library. Our main focus has been on Australia and all ports there are up to date. See as well the updated rates for the **Suez Canal**. Please remember to use the "Missing Info" link to alert us to information you'd like added as a priority.

New functions recently added

1. Mark certain positions as fixed and exclude them from your search results for 'n' days.
2. Add and replace your direct tonnage positions in one single action each day.
3. Search specifically for your direct tonnage.

Operators: In Brief

AXSDry is used by many **Owner/Operators** for their day-to-day management needs. Indeed, we have added many tools and functions specific to this group of users. For example, view market and direct tonnage in the same searches; mark vessels as fixed to remove them from search results; add comments to a common pool so teams can work from the same information database; and more.

Tips & Tricks

1. **Select "Set as Fixed"** to exclude from your results positions you know to already gone (or fixed). This way you will filter out any old information that may still be coming.
2. **Use the pop-up options**, available for AXSDry Vessel Manager and AXSDry Calculator. This saves time reloading screens if you regularly switch to and from them.
3. **Click on Manage/Search or hit the ESC key** on your keyboard to easily switch between AXSDry Vessel Manager Search and the Results screen.
4. **Download TurboTop** and keep the AXSDry Position QuickUpdater in front of all other windows. (TurboTop is freeware, download it from <http://www.savardsoftware.com>)

Quality Control.....

At AXSMarine, we strive to deliver the highest performance solutions as possible. Nevertheless, with an offer as rich and vast as ours, "bugs" are inevitable. If you discover a bug while working, **please let us know: tell us exactly where, and what happened.** This will help our technical teams prioritize their work and resolve the problem fast. In the "Help" menu, click on "Questions – Report Missing Info" and send any details; you could also contact our support desk, or your usual customer representative.

Useful Link

"**The Calendar of Public Holidays**" website lists the world's bank holidays, public holidays, school holidays, and religious observances affecting the business community: http://www.jours-feries.com/statique/index_pays2.html. The site is in English.
