

News

Volume 1, Number 4 – 8 June 2007

AXSDry is a complete set of online tools and databases designed for the dry bulk shipping industry. Hundreds of operators, brokers, charterers and financial institutions save time and effort by pooling their key information in one place. Members agree they make better decisions by easily interacting data with our powerful assessment and analysis tools. AXSDry enables you to have a complete view of the dry bulk shipping market – without having to sort through thousands of e-mails, or manage multiple programs on your desktop.

What's New?

There are over **100 different companies using AXSDry**, and that number increases every month. We thank all of our clients for their business! Please review our customer list at: http://www1.axsmarine.com/public/download/AXSDry_Members.pdf

AXSDry Welcomes New Members.....

Worldwaves, the shipping arm of **Laft Tiz** of Iran (www.lafttiz.com) has adopted our position & cargo managers to help streamline their business practices.

Industrial Metalurgical Holding of Moscow has taken the full access to manage positions, data research and voyage estimations.

We have contact details for both companies if you wish to work with them.

Inside AXSDry.....

Cargo Manager

Our new Cargo Manager was launched in May 2007. With it, you can enter, search and manage your market and private orders, TC's and COA's more efficiently. The new interface is fast and easy to use. Contact us to set your personal export formats and learn how to get the maximum benefit from the system.

Voyage Calculator

This very popular tool is being upgraded to reflect the latest technological developments from AXSMarine's R&D team, as well as to incorporate some user-requested changes.

Add *your* requirements to our work list!

Your input, requests for improvements and other suggestions are welcome through the end of June.

AXSMarine Top 100

Coming soon! On an aggregated data basis, AXSMarine will soon provide a **searchable database** for a quantity of active vessels by size, and the change over time; how many vessels are generally open by basin and how this had trended over time; the top TC owners by type and GDW; the quantity of vessels in operation in comparison with those operated by other companies. Watch this newsletter for more details!

Tips & Tricks

1. Use pop-ups in Vessel Manager and Calculator. They will save you from having to reload the screens, especially useful if you regularly switch to and from these services.
2. Save search proformas and click on QMatch to open them directly from the Vessel search result screen.
3. Easily switch between Vessel Manager Search and Results screens by clicking on Manage/Search or hitting ESC.
4. Download Turbotop and keep the position quickupdater permanently in front of all other windows. <http://www.savardsoftware.com/turbotop>
