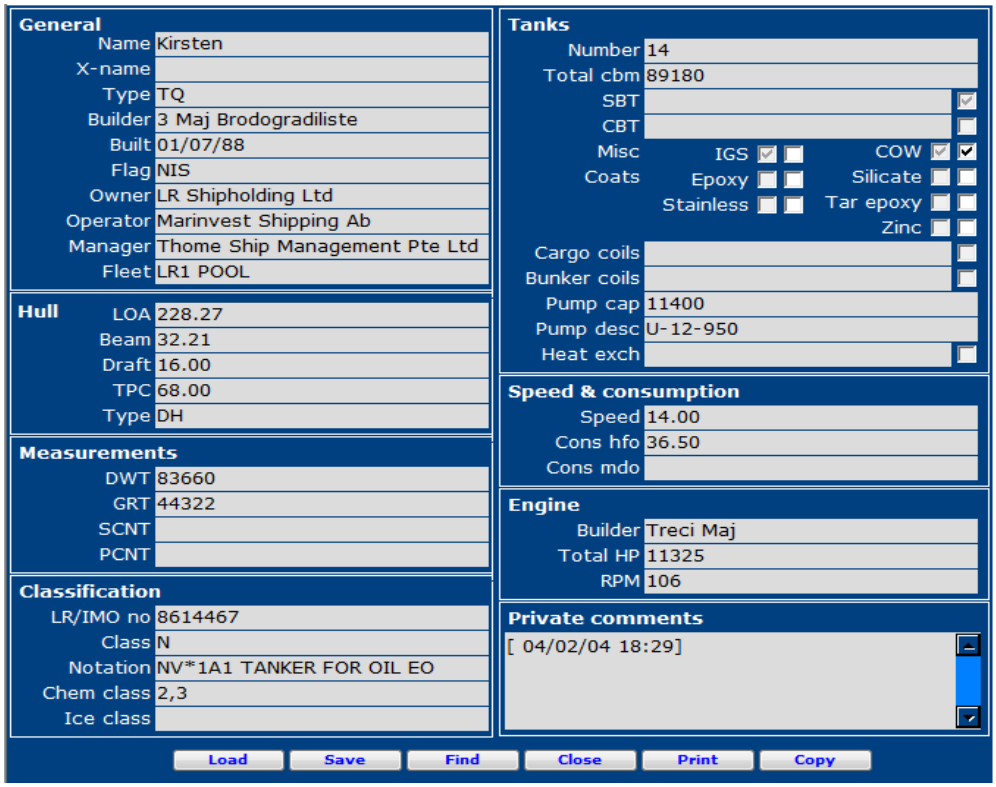
Product Information Sheet

The AXSTanker Club is a community which is today composed of 85 competitive tanker broker shops representing more than 500 individuals who connect each day.

AXSTanker Vessel Descriptions



Interactivity

- Information available on all size for over 16,500 ships including speed and consomptions.
- Used daily by more than 85 shipbrokers companies around the world
- Available anywhere, anytime: No update disks to load, no new releases to install. The updated information you need is always at your fingertips.
- Descriptions are created with LR Fairplay databases upon which members can contribute to upgrade descriptions so you have the possibility to amend data for each ship and keep that description private
